

Make the text bigger on an iPhone

Neighbor Tech - a ProSystems program - Keep this handy

For: iPhone

Bigger, easier-to-read words across your iPhone - in Messages, Mail, and most apps.

Step by step

1. Open the Settings app.

It has a grey gear icon. Tap it once to open.

2. Tap 'Display & Brightness'.

Scroll down the list until you see those words, then tap them.

3. Tap 'Text Size'.

A slider appears near the bottom of the screen.

4. Drag the slider to the right to make words bigger.

The sample text grows as you slide. Stop where it feels comfortable.

Good to know

- Want the words bolder too? Back on 'Display & Brightness', turn on 'Bold Text'.
 - For even larger text, look in Settings under 'Accessibility', then 'Display & Text Size', then 'Larger Text'.
-

If you get stuck

If a menu looks different than these words, look for the same key phrase - 'Text Size' or 'Display'. Or call us and we'll walk you through it.

Questions? Call us.

There's no such thing as a silly question. Call or text us anytime and we'll walk you through it.
